INTRODUCTION

This handbook was prepared by the Public Policy Director of Graduate Studies (DGS) and the staff of the Public Policy PhD Program. It is intended to be of use to current students and faculty, and to prospective applicants to the Public Policy PhD Program. Subjects not covered herein, or those under review, are to be handled provisionally at the discretion of the Director of Graduate Studies.

This handbook is only one source of information. Students are also responsible for knowing the university guidelines and requirements as described annually in the Graduate School Bulletin. In addition, the DGS has a Manual for Directors of Graduate Studies which contains necessary information (sometimes in more detailed and specific form than is presented here) regarding all aspects of graduate study at Duke. Do not hesitate to consult with the DGS.

ABOUT THE PROGRAM

The PhD in Public Policy is an interdisciplinary scientific research degree. By design, the program couples rigorous grounding in a core discipline with exposure to broader perspectives and training in the communication skills required to convey scholarly insight to non-specialists. Graduates of the program are prepared for academic positions in public policy and other policy-oriented schools, as well as for openings in disciplinary departments with an applied orientation. Graduates are also prepared for professional positions in domestic and international public agencies, research organizations and policy consulting firms.

The program requires a two-course sequence in theories of public policy and coursework in three other social science disciplines. Students designate a disciplinary concentration such as economics, political science, sociology or psychology, as well as a policy focus, such as social policy, globalization and development, health policy, child development and social policy and social and behavioral determinants of health.

STUDYING PUBLIC POLICY AT DUKE

The PhD in Public Policy at Duke enables students to be mentored by Duke’s top-rated faculty members in public policy and Duke’s departments of economics, political science, sociology, and psychology and neuroscience, among others, all on the beautiful Duke campus. Duke University is located in Durham, N.C., close to both Chapel Hill (and UNC-Chapel Hill) and to the North Carolina state capital of Raleigh, in the dynamic Research Triangle area. Durham is a four-hour drive or 45 minute flight from Washington, DC.

Duke’s PhD in Public Policy is distinguished by its truly interdisciplinary nature; the program offers a unique balance of depth in a discipline such as economics, political science, sociology or psychology and the opportunity to focus on a particular policy area such as social policy, global policy, or health policy. The Sanford School is a national and international leader in the dynamic field of public policy studies, with numerous interdisciplinary centers exploring vital policy questions in the field and in the classroom. Members of our faculty are experts in fields ranging from aging, education and the environment to international affairs, media and democracy and welfare reform. In addition to working with Duke’s world-class faculties of public policy, economics, history, political science, psychology and sociology, PhD students interact with leading scholars from Duke’s Nicholas School of the Environment and Earth Sciences, Duke’s Fuqua School of Business, and Duke’s Law and Medical Schools.
The relatively low number of students matriculated each year (5-8) enables each public policy PhD student to receive individual faculty attention in courses and in research. Students also enjoy state-of-the-art academic and research facilities including dedicated doctoral student space in Rubenstein Hall and the 6.3 million volumes in the Perkins Library System.

Most of our students pursue doctoral-level public policy research with the goal of pursuing a self-directed research career in academia or non-profit research organizations. Graduates are also well-positioned for jobs that place their research skills in the service of others, in domestic and international public agencies or policy consulting firms. Students are united by their passion for public policy and their desire to have a positive impact on the world.
**GRADUATE SCHOOL REQUIREMENTS**

The following requirements have been taken from the website of the Duke University Graduate School. Please always consult the Graduate School website regarding policies, procedures, deadlines and forms to ensure you are using the most up-to-date information possible. Information published by the Duke University Graduate School supersedes the information below about Graduate School requirements.

**Formal Requirements**
The formal requirements for the PhD degree are as follows:

1. payment of six semesters of full-time tuition (or five if credit for previous graduate work has been approved)
2. major and related courses
3. English language proficiency
4. training in the Responsible Conduct of Research
5. a supervisory committee for the student's program of study
6. continuous registration
7. preliminary examination
8. dissertation
9. application to graduate
10. final examination
11. deposit of dissertation

**Major and Related Work**
The student's program of study normally demands substantial concentration on courses in the major department, plus coursework in related minor fields as determined by individual programs. If there are deficiencies in a student's undergraduate program, departments may also require certain undergraduate courses to be taken. In all cases the student's supervisory committee will determine if the student must meet requirements above the minimum.

**English Language Proficiency**
All international students whose native language is not English must enroll in English language courses as determined by the English language placement exams administered during Orientation, unless formally waived from this requirement by the Graduate School upon certification of competency in English. These courses must be taken during students' initial year at Duke. For more information, see the English for International Students web site.

**Responsible Conduct of Research**
All doctoral students at Duke University are required to complete a series of training sessions in the Responsible Conduct of Research. For students in the social sciences a total of 12 hours of training must be completed. Half of this requirement (6 hours) is satisfied by participating in a mandatory orientation during the fall of the first year. The remaining 6 hours of training must be completed by attending three RCR forums (a schedule is provided at the beginning of each semester) by the end of the student's third year.

**Committee to Supervise the Program of Study**
As early in a student's course of study as is practicable and not later than two months before the preliminary examination, the Director of Graduate Studies in the major department will nominate for the approval of the Dean a supervising committee, using the appropriate form. The committee consists of at least four members, with one member designated as chair. This committee should include at least three graduate faculty members of the Public Policy PhD Program faculty, and at least one member, usually from outside the department, who serves as the Minor Area Representative. This committee, with all members participating, will determine a program of study and administer the preliminary examination.
Residence
The minimum residence requirement is one academic year of full-time registration at Duke (that is, two consecutive semesters of full-time tuition).

Time Limits
Ordinarily a student registered for full-time study should pass the preliminary examination by the end of the third year. A student who has not passed the examination by this time must file with the Dean of the Graduate School a statement, approved by the Director of Graduate Studies in the major department, explaining the delay and setting a date for the examination. Except under unusual circumstances, extension will not be granted beyond the middle of the fourth year.

The doctoral dissertation should be submitted and accepted within two calendar years after the preliminary examination is passed. Should the dissertation not be submitted and accepted within four years after the examination, the candidate may, with the approval of the committee and the Director of Graduate Studies, petition the Dean of the Graduate School for an extension of up to one year. If this extension is granted and the dissertation is not submitted and accepted by the new deadline, the student may be dropped from candidacy. The student must then pass a second preliminary examination to be reinstated as a candidate for the degree. In such cases, the time limit for submitting the dissertation will be determined by the Dean of the Graduate School and the candidate's committee.

Ordinarily, credit is not allowed for graduate courses (including transfers) or foreign language examinations that are more than six years old at the date of the preliminary examination. Similarly, credit will not be allowed for a preliminary examination that is five years old at the date of the final examination. In cases of exceptional merit, however, the Dean of the Graduate School may extend these limits. Should the five-year limits be exceeded, the student's department must submit to the Dean specific requirements for revalidating credits or examinations.

Preliminary Examination
A student is not accepted as a candidate for the Ph.D. degree until the preliminary examination has been passed. A student must be registered during the term in which he/she takes the preliminary examination. In the summer a preliminary examination may be scheduled only between the opening and closing dates of the summer session. Successful completion of the preliminary examination requires at least three affirmative votes and no more than one negative vote. The sole exception to this policy is that a negative vote cast by the chair of the examining committee will mean a failure on the examination. A student who fails the preliminary examination may apply, with the consent of the full supervisory committee and the Dean of the Graduate School, for the privilege of a second examination to be taken no earlier than three months after the date of the first. The original committee must conduct the second examination. Successful completion of the second examination requires the affirmative vote of all committee members. Failure on the second examination will render a student ineligible to continue a program for the Ph.D. degree at Duke University.
The Dissertation

The dissertation is expected to be a mature and competent piece of writing, embodying the results of significant and original research. For requirements and all information for submitting an electronic dissertation, visit the Electronic Theses and Dissertation section. The dissertation must be completed to the satisfaction of the professor who directs the dissertation, members of the student’s advisory committee, and the dean of The Graduate School.

Review the current semester graduation deadlines for the semester in which you plan to graduate. Electronic dissertation must be submitted to UMI/ProQuest and the format accepted at least two weeks before the scheduled date of the student’s examination.

All doctoral dissertations are published electronically through University Microfilms, Ann Arbor, Michigan. Authors may copyright them if they wish. Abstracts are published in Dissertation Abstracts International. If copyright is desired, an additional fee of $65 is charged.

Apply to Graduate

Students must apply to graduate in Duke Hub one month before the dissertation is presented and no later than the dates listed below:

- January 25 for receiving your degree in May
- June 15 for a receiving your degree in September
- October 15 for receiving your degree in December

This application should indicate the approved title of the dissertation and be approved by both the director of graduate studies of the student’s major department and the professor who directs the dissertation.

The Final Examination

The final examination is administered by all members of the supervising committee. The final oral examination shall be primarily on the dissertation; however, questions may be asked in the candidate's major field. The exam normally continues at least two hours, but not more than three. Except in unusual circumstances approved by the Dean, a final examination will not be scheduled when the university is not in session. A student must be registered during the term that he/she takes the final examination.

Successful completion of the final examination requires at least four affirmative votes and no more than one negative vote. If the committee conducting the examination includes the minimum of four examiners, a single negative vote fails the candidate. The sole exception to this policy is that a negative vote cast by the chair of the examining committee will mean a failure on the examination. A student who fails the final examination may be allowed to take it a second time, but no earlier than six months from the date of the first examination. Permission to take the second examination must be obtained from the professor who directed the dissertation and from the Dean of the Graduate School. Failure to pass the second examination renders the student ineligible to continue work for the Ph.D. degree at Duke University.

Deposit of Electronic Dissertation

After passing the examination, candidates make changes requested by the examining committee and formatting changes requested by The Graduate School to the electronic dissertation that was submitted initially. The Graduate School will be notified that you have revised your dissertation and you will receive an e-mail when your dissertation has been accepted. All dissertations must be accepted before the final
submission deadline for the semester in which the student intends to graduate, or 30 days from defense date, whichever is sooner.

**Commencement**
Graduation exercises are held once a year, in May, when degrees are conferred on and diplomas are issued to those students who have completed requirements by the end of the spring. Those who complete degree requirements by the end of the fall or by the end of a summer term receive diplomas dated December 30 or September 1, respectively. There is a delay in the mailing of September and December diplomas because diplomas cannot be issued until they are approved by the Academic Council and the Board of Trustees.
PUBLIC POLICY PhD PROGRAM REQUIREMENTS OVERVIEW

Detailed information about each of the following requirements is available below. The Public Policy PhD Program requires students to:

1. Complete a set of core public policy course requirements: Political Economy of Public Policy, Ethics of Public Policy, Microeconomics.
2. Complete disciplinary concentration and research methodology requirements, including sub-field requirements, in one of the following areas:
   a. Economics
   b. Political Science
   c. Sociology
   d. Psychology
3. Complete at least one course in three of the following four disciplines:
   a. Economics
   b. Political Science
   c. Sociology
   d. Psychology
4. Complete a DGS-approved course of study focusing on a particular policy area.
5. Complete a second-year empirical research manuscript.
6. Pass a comprehensive examination, no later than September 30th of the third academic year in residence.
7. Complete a yearlong (two-course) research seminar leading to the dissertation proposal.
8. Complete the equivalent of 16 courses (minimum), equaling 48 credits. Please see checklist below.
9. Attain dissertation status, including meeting qualifying requirements and passing the preliminary exam, by the end of the third year.
10. Pass a final examination, which consists of an oral defense of a dissertation to an approved supervisory committee. This is typically completed by the end of the fifth year.
11. Regularly attend and participate in two weekly colloquia: the Graduate Research Workshop, an informal setting suitable for the presentation of preliminary work by students, and the Sanford Seminar Series, where students, faculty, and outside speakers present work suitable for a broader audience.

CHECKLIST OF THE 16 (MINIMUM) REQUIRED COURSES – 48 TOTAL CREDITS

1. Political Economy of Public Policy (PubPol 901)
3. Microeconomics 1 (Economic Concentrators take Econ701, all others take PubPol 810)
4. Microeconomics 2 (Economic Concentrators take Econ 705, all others take PubPol 811)
5. Disciplinary concentration 1 – Research Methods
6. Disciplinary concentration 2 – Research Methods
7. Disciplinary concentration 3 – Subfield Elective
8. Disciplinary concentration 4 – Subfield Elective
9. Disciplinary concentration 5 – Subfield Elective
10. Policy area elective 1
11. Policy area elective 2
12. Policy area elective 3
13. Non-concentration social science 1
14. Non-concentration social science 2 for disciplinary concentration of Economics OR Elective for disciplinary concentration of Political Science, Sociology or Psychology
15. Dissertation proposal seminar 1 (PubPol 908)
PUBLIC POLICY PHD CORE COURSE REQUIREMENTS

All students in the PhD program take a common set of public policy courses that reflect the interdisciplinary and applied nature of the degree. These courses are intended to introduce students to a core theoretical literature about the nature of political, economic and social institutions and systems, approaches to modeling how policy interventions translate into policy outcomes, and frameworks for normative evaluation of both processes and outcomes. Students are highly encouraged to seek input on course selection from their designated advisors in Public Policy and other faculty in their disciplinary department. All students are required to satisfy the policy core course requirements. These are:

Political Economy of Public Policy – PubPol 901:
A one-semester course to be taken in the first semester of the program intended to introduce students to a core set of social science ideas relevant to public policy. These include theories of collective action, institutions and governance, all of which draw from economics, political science, sociology or psychology. The goal of the course is to provide students with a broad framework for evaluating market, political and social failures; identifying possible policy interventions; and predicting the ways in which such interventions would translate into policy outcomes.

Social Choice and the Political Economy of Policy Making – PubPol 902:
A one-semester course to be taken in the second semester of the program intended to introduce students to normative frameworks for evaluating public policies and governance processes. The course draws on social choice theory, political theory and social theory. The goal of the course is to provide students with normative and analytical bases to evaluate the public good, tradeoffs between efficiency and equity, political legitimacy and justice.

Microeconomics:
Microeconomic thinking is a central skill for understanding how individual preferences and behaviors translate into certain forms of collective action and, therefore, is a key analytic tool for public policy, as it has become for political science and economics. Every student is required to reach a level of proficiency in microeconomics.

For students in the Economics Disciplinary Concentration, the Microeconomics requirement is fulfilled by successful completion of ECON 701 (Microeconomics I) and ECON 705 (Microeconomics II).

For students in the Political Science, Sociology or Psychology Disciplinary Concentrations, the Microeconomics requirement is fulfilled by successful completion of PUBPOL 810 or PUBPOL 818 (Microeconomics and Public Policy Making) and PUBPOL 811 (Microeconomics: Policy Applications) and the associated PhD-level discussion sections and problem sets.
**DISCIPLINARY CONCENTRATION REQUIREMENTS OVERVIEW**

Although the Public Policy PhD Program is truly interdisciplinary, it is designed to ensure that students have a rigorous grounding in a particular disciplinary tradition. Students designate a disciplinary concentration when applying to the program. They may opt to concentrate in economics, political science, sociology and psychology.

A minimum of five courses in a discipline is required. Students take basic research methods courses (a minimum of two courses) in their disciplinary department. Students also take courses satisfying requirements in one designated sub-field in their discipline, and they are expected to meet appropriate qualifying or preliminary standards in that sub-field as would be required of a disciplinary PhD candidate. Economics concentrators may, in certain circumstances, receive limited waivers from meeting the qualifying standards in core microeconomic theory or econometrics courses.

Although we require a disciplinary concentration, we also expect Public Policy PhD students to gain knowledge in the other core disciplines. Thus, we require every student to take at least one course in three of the core disciplines: economics, political science, sociology and psychology.
**DISCIPLINARY CONCENTRATION REQUIREMENTS: ECONOMICS**

Public Policy PhD students with a disciplinary concentration in Economics must complete the following courses within the Economics Department:

- ECON 701: Microeconomics I – PhD program microeconomics requirement
- ECON 705: Microeconomics II – PhD program microeconomics requirement
- ECON 703: Econometrics I – Research methods requirement
- ECON 707: Econometrics II – Research methods requirement

AND a minimum of three courses (nine credits) in one of the department’s major field areas:

<table>
<thead>
<tr>
<th>Field</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applied Microeconomics</td>
</tr>
<tr>
<td>Econometrics</td>
</tr>
<tr>
<td>History of Political Economy</td>
</tr>
<tr>
<td>Macroeconomics and International Economics</td>
</tr>
<tr>
<td>Microeconomic Theory</td>
</tr>
<tr>
<td>Economics of Education</td>
</tr>
</tbody>
</table>

**Applied Microeconomics** encompasses many fields, including Development, Environmental, Family, Health, Industrial Organization, Labor, Population and Public Economics. Our belief is that students are best served in applied microeconomics by mixing and matching across course types. The field exam committee would then be dictated by the topic of the field paper and the combination of the courses taken. For a major in **Econometrics**, Econometrics III must be one of the courses comprising the nine graded credits.

**Course structure in the Economics Department for the second year and beyond**

After the first year, many (but not all) of the upper level courses in Economics are divided into half semester 'modules'. The purpose of this structure is to allow students to better align coursework with their research interests. By their nature, modules only count for 1.5 credits and students must complete enough of them to fulfill their graded course requirements. Module courses are all currently listed under special topics course number ECON 8. In the future, courses in fields under the Applied Micro umbrella will be designated by the letter "A", Econometrics courses by "E", Macro Courses by "M" and Micro Theory courses by "T".

Students who wish to major in an Applied Micro field have some flexibility in their choice of courses, but must obtain explicit approval of their course plan from their advisor.
**DISCIPLINARY CONCENTRATION REQUIREMENTS: POLITICAL SCIENCE**

Public Policy PhD students with a disciplinary concentration in Political Science must meet Political Science departmental requirements for research methods courses and departmental requirements for one of the Political Science Major Fields. However qualifying standards, including preliminary examinations, are determined by the Public Policy department and described on p. 25 of this manual.

**Methods Requirements**

To meet the departmental research methods requirements, students must complete a minimum of two courses. Public Policy PhD students are encouraged to follow the requirements for the Political Science PhD which offers these two introductory courses:

- PS630: Empirical Methods for Political Science
- PS631: Analytical Methods for Political Science

Depending upon a student’s background and research goals other methods courses may be substituted for one of these courses with the approval of the faculty advisor and DGS. Here are some examples of other courses offered at the graduate level:

- PS 575S: Intermediate Statistical Methods
- PS 633S: Introduction to Positive Political Theory
- PS 631: Political Applications of Game Theory
- PS 731: Scope and Methods in Political Science
- ECON 703: Econometrics I
- STA 611: Introduction to Statistical Methods
- STA 831: Probability and Statistical Models

Students must also complete a minimum of three courses, including the field seminar, in one of the following major field areas:

- Normative Political Theory and Political Philosophy
- Political Behavior and Identities
- Political Institutions
- Political Methodology
- Security Peace & Conflict

For a more detailed description of the major fields and coursework visit the Political Science department website.
DISCIPLINARY CONCENTRATION REQUIREMENTS: SOCIOLOGY

Public Policy PhD students with a disciplinary concentration in Sociology must complete the following courses within the Sociology Department:

SOC 710: Social Theory
SOC 722: Statistics I
SOC 720: Survey Research Methods OR
SOC 742S: Comparative and Historical Methods

The student will choose either SOC 720 or SOC 742S as required by the student’s sociology specialization area (see below).

The Department offers expert training in multiple sociological subfields. Students can choose to specialize in one of these areas or create specialty foci of their own, with the guidance of their advisory committee. Current field areas include:

- Economic Sociology
- Medical Sociology
- Population Studies
- Race
- Religion
- Social Networks
- Social Psychology
- Stratification

For a more detailed description of the subfields and coursework visit the Sociology department website.
DISCIPLINARY CONCENTRATION REQUIREMENTS: PSYCHOLOGY

The Department of Psychology and Neuroscience offers expert training in multiple psychological subfields. Students can choose to specialize in one of these areas or create specialty foci of their own, with the guidance of their advisory committee. The most relevant subfields include:

- Developmental psychology
- Clinical psychology*
- Social Psychology

*Although students selecting the psychology concentration will not be able to complete training to become clinicians, many of the Psychology and Neuroscience faculty members with expertise in Health Psychology are included in this group.

Note: The Department also offers training in Cognition and Cognitive Neuroscience, and Systems and Integrative Neuroscience.

***All Ph.D. students are required to take at least five courses in their disciplinary concentration. The following courses, all in the Department of Psychology and Neuroscience, constitute the curricular requirements for the concentration. All students electing the psychology concentration are required to take the following methods courses, which are taught each year:

PSY 718: Research Design
PSY 767: Applied Correlation and Regression Analysis

Depending on students’ substantive interests, they are required to select three of the following theory courses:

PSY 727: Theories of Developmental Psychology [taught each year]
PSY 722: Cognitive Development [taught every other year]
PSY 721: Social Development [taught every other year]
PSY 707: Models of Intervention and Prevention [taught each year]
PSY 705: Adult Psychopathology [taught each year]
PSY 706S: Health Psychology Intervention [taught every other year]
**Policy Area Focus**

In addition to gaining strength in a particular disciplinary tradition, Public Policy PhD students acquire depth in the policy area in which they will write a dissertation. Students take a minimum of two courses in a policy area to fulfill this requirement. Students may opt to take an independent study or an individual “Readings Course” to fulfill one or more of these requirements. Every student develops a plan of study to be approved by both the Public Policy Director of Graduate Studies and the student’s faculty advisor that satisfies the policy area requirement and prepares the student for the comprehensive exam.

Students typically focus on policy areas in which Duke has particular strength. These areas of strength can be discerned by reviewing the interests of the Sanford faculty. Students are at liberty, however, to select a policy area of their choosing, subject to approval of the Director of Graduate Studies. Students who have a primary interest in environmental policy should apply to the University Program in Environmental Policy (a joint doctoral program with the Nicholas School of the Environment and the Sanford School of Public Policy).

Inter-Institutional Registration

Students may occasionally find relevant coursework at nearby institutions, including UNC-Chapel Hill, NC Central University, or NC State. Students who have found a course of interest should initiate the Inter-Institutional Registration process:

- Contact the course instructor to receive his/her written permission to take the course.
- Print out the Inter-Institutional Registration form.

- Bring this written permission, a description of the course, and the completed Inter-Institutional Registration Form to the PhD Director of Graduate Studies to discuss the course and have the form signed.
- Bring all permission information and forms to the PhD Assistant Director, who will forward them to the Sanford School Registrar Anita Lyon.
**SAMPLE PhD TRACKS**

All of our PhD students, regardless of disciplinary concentration or policy area focus, will generally spend their first two years of the program taking classes – a combination of public policy core courses and electives. Students usually spend their third year writing and defending their dissertation proposal, supported by a PUBPOL 908/909. The fourth and fifth years are typically devoted to writing and defending the dissertation. Below are illustrative graduate student career paths, to provide a better idea of what your five years at Duke will encompass.

**Sample Path 1: Disciplinary Concentration in Economics, Policy Focus in Health**

QUALIFYING REQUIREMENTS

Throughout their course of study in Duke’s PhD in Public Policy Program, doctoral students are required to meet specific qualifying requirements before beginning full time work on a dissertation. Failure to meet any of these requirements may result in dismissal from the PhD in Public Policy Program.

Qualifying requirements for the Public Policy PhD Program include:

- Satisfactory performance in the core public policy and disciplinary departmental courses (3.0 GPA or better average). Students concentrating in Economics must show satisfactory performance (B+ or better) in the PhD-level microeconomics and econometrics courses or pass qualifying examinations held in the summer following the first year. Economics concentrators may be granted limited waivers from this qualifying requirement under certain conditions, including but not limited to outstanding performance in PUBPOL 901/902.

- Passing a qualifying exam on theories of public policy. This exam is common to all students, and is normally taken at the end of the first year as part of PUBPOL 902.

- Passing a comprehensive exam that encompasses an evaluation of an individual’s knowledge of a disciplinary concentration and policy area focus. (See description of Comprehensive Exam Policies and Procedures on the following page.) This exam is typically taken at the beginning of year 3.

- Passing a preliminary exam, a defense of a dissertation prospectus, at the end of year 3.
**Comprehensive Exam Requirements and Procedures**

The Comprehensive Exam consists of three components: 1) an empirical research paper requirement, typically satisfied by the submission and subsequent revision of a paper written for a second-year course, 2) a written test or journal-length literature review manuscript, and 3) an oral follow-up with the exam committee. The oral component should be seen as an opportunity to request further explanation, to clarify answers provided on the written exam, or to begin the process of translating mastery of a relevant literature to identification of research questions for the dissertation. The exam encompasses an evaluation of an individual’s knowledge of a disciplinary concentration and a policy area focus. Exams are individually designed to test whether a student has achieved a sufficient mastery of their field to warrant granting them the independence to pursue their own research agenda. In the Public Policy program, a “field” may connote some combination of disciplinary subfields and policy areas of interest. *Note: Passing the Comprehensive Exam is a prerequisite for taking the Preliminary Exam at the end of the 3rd year. The Preliminary Exam is a defense of a student’s dissertation prospectus.*

**Exam Committee**

Each student will have a 3-person Comprehensive Exam Committee to conduct and assess the examination. The student will be responsible for selecting a Committee Chairperson to oversee the development of the exam and two additional committee members with expertise in the student's disciplinary concentration and policy area focus, subject to approval by the Director of the PhD Program. At least two committee members will have a primary appointment in Public Policy. Each student will work closely with the exam committee to determine the focus of the exam and to identify a body of knowledge that the student will be responsible for mastering.

**Specific Requirements and Deadlines**

**Statement of Academic Purpose:** Each student must submit a 1-2 page Statement of Academic Purpose that constitutes a coherent, concise summary of the individual’s academic plan. Given the inter-disciplinary nature of the PhD Program in Public Policy, this statement should seek to make detailed connections between a student’s disciplinary concentration, disciplinary subfield and policy area focus. The statement is not a dissertation proposal, but rather a reflection upon the rationale for the student’s body of coursework that can guide the Program Director in appointing and charging an appropriate Comprehensive Exam Committee. **For students in the 2nd year of the program, the statement must be submitted to the PhD Program Coordinator no later than November 1.**

**Reading List:** After the Statement of Academic Purpose is submitted and the exam committee is appointed, it is the responsibility of the student to meet with members of the committee to discuss compiling a list of readings, subjects, and/or concepts that the student will be expected to know for the exam or read for the manuscript. Ideally, this list should be completed and approved by all members of the exam committee and the Program Director before April 1. However, it is strongly encouraged that students consult with their exam committees before the end of the fall semester of the second year to identify any gaps in a student’s preparation that could be filled by coursework in the spring semester.

**Second Year Paper:** Students consult with their committee members to identify a research paper suitable for satisfying the second year paper requirement. In the event the student is not engaged in research writing for any second year classes, it is expected that the student will produce such a paper independently or in the context of an independent study under the direct supervision of an exam committee member. The second year paper is to be submitted to the exam committee by the last day of the spring semester. Committee members will provide comments on the draft to the student in a timely manner, no later than May 31. The student is responsible for providing a revised version of the paper to committee members by the end of the first day of classes for fall semester in a student’s third year of study.
**Administration of the Written Exam:** If the written examination is selected by the student, it will be administered in a single eight-hour session. Students are permitted to bring only a clean paper copy of their reading list, without annotations. The exam is typed on electronic bluebook software that precludes access to the internet or to the hard disk of the computer in use. This exam should be completed by the end of the first day of classes for fall semester in a student’s third year of study.

**Literature Review Option (**replaces the written exam\)**: Instead of an eight-hour written test, students will be allowed to write a journal-length manuscript that reviews and synthesizes a literature and/or makes a theoretical contribution to a field. The manuscript should indicate mastery of literature, and the author should synthesize and critically examine a field of research. The intent is to help students grow these research skills and add to their academic accomplishments/vita.

Each student and the faculty research mentor must declare which option will be pursued by April 1 through an email that copies the research mentor and indicates which option will be pursued and a tentative manuscript title.

For students electing the manuscript option, they should consult with all committee members well ahead of the deadline about the topic, readings, and thesis. The deadline is the same as for students electing the written test option. The oral exam must be scheduled for at least one week after turning in the manuscript, and all components must be completed before September 30.

**Administration of the Oral Exam:** The oral examination occurs no later than one week after the written exam and no later than September 30th of the student’s third year in residence. The oral exam is typically scheduled for 90 minutes, which incorporates time for the committee to deliberate. The committee may ask the candidate about his or her second year paper, his or her responses to written exam questions or the literature review, or any other topic germane to assessment of the candidate’s preparedness to pursue an independent research agenda.

**Assessment:** Successful completion of the Comprehensive Exam requires a passing vote from all committee members. If the vote is split (2:1), the DGS will decide whether the student will pass the exam. In the event of a failure, the student will be permitted one retake to be scheduled no later than the end of the fall semester of their third year in residence.

**Deadlines for 2nd year:**

November 1st—Statement of Academic Purpose (submit to DGS and DGSA)

April 1st—Reading List (submit to DGS and DGSA)

April 1st—Declaration of written test or literature review (submit to DGS and DGSA)

May (last day of spring classes)—Second Year Paper (submit to exam committee)

August (First Day of Classes in Fall Semester in third year of study)—Final draft of second year paper, and literature review option/for written exam

September 30th—Oral exam must be completed and should be completed one week after your written exam. Most exams will be completed by the second week in September. The September 30th date is a buffer in case the committee is difficult to schedule. Again, most students should plan on scheduling their oral exam
Dissertation Overview

A successful Public Policy PhD dissertation must constitute a significant contribution to policy-relevant knowledge, either through innovative application of social science methods to policy problems, or by innovation in theory or methods appropriate for addressing public policy problems.

Students are expected to develop and defend a PhD prospectus before a dissertation. The committee consists of at least four members, with one member designated as chair. This committee should include at least three graduate faculty members of the Public Policy PhD Program faculty, and at least one member, usually from outside the department, who serves as the Minor Area Representative. This committee, with all members participating, will determine a program of study and administer the preliminary examination. Students are generally expected to have defended a dissertation proposal (the oral defense constitutes the preliminary exam) by the end of their third year. Normally, in years four and five, students work on their dissertations, defending their dissertations by the end of the fifth year.

The PhD Committee

The committee will be appointed by the Director of Graduate Studies, in consultation with the student, early enough to advise in the formulation of the student's program and in defining the research topic for the dissertation.

The committee must be appointed and approved by the Associate Dean of the Graduate School at least two months before the student's preliminary examination. The Director of Graduate Studies recommends the committee's composition to the Dean by means of a committee approval form provided by the Graduate School.

The date of the Associate Dean’s signature on the committee approval form serves as the official date of record for committee approval. The Director of Graduate Studies and/or the student is responsible for notifying the members of the committee of their appointment and for scheduling all examinations. Normally, the same committee administers both the preliminary and the dissertation examinations. The procedure for establishing the original committee should be followed in making any necessary changes in a student's committee. All such changes in a committee must be formally approved by signature of the Associate Dean of the Graduate School before the exam takes place, or the exam may be invalidated.

Members of the committee are drawn from the graduate faculty of Duke University. At least one member of the committee must represent the student's minor or related area; at least three must represent the major. Occasionally requests to appoint persons not on the full-time graduate faculty — especially members of the graduate faculties of the University of North Carolina and North Carolina State University — are approved by the Associate Dean. A person not on the graduate faculty should be appointed an ad hoc member for a term that corresponds to the projected duration of the committee service. Please contact the DGSA who will use the forms available on the Graduate School web site.
THE DISSERTATION PROPOSAL AND THE PRELIMINARY EXAMINATION

In their third year, students take a yearlong (two course) Dissertation Proposal Workshop (PUBPOL 908/909). Approximately one-third of the workshop consists of guided discussions of topics in professional development, including methods of identifying research questions, strategies for securing research support, writing for an interdisciplinary audience, oral presentation strategies, and navigating the peer-review process at academic journals and scholarly presses. Two-thirds of course sessions consist of student presentations. Students begin the academic year by making general presentations regarding their fields of interest, then move over the course of the semester to identify a specific dissertation topic.

All students are required to prepare a dissertation proposal. The proposal should describe a research project in detail sufficient to permit an evaluation of both its merit and feasibility. The PhD program expects that this dissertation proposal will include a statement of the research question, a thorough discussion of how answering this question will advance existing academic literature, and a statement of the prospective consequences of the research findings for policy. The proposal should identify the methods to be used and data sources to be procured in the course of answering the research question.

A student is not accepted as a candidate for the PhD degree until the preliminary exam has been passed. **The student is required to submit his or her dissertation proposal to all members of the PhD Committee at least two weeks before the preliminary exam.** The preliminary exam includes an oral defense of the dissertation proposal, which may incorporate an evaluation of the depth of dissertation area knowledge and the research methodologies to be used in the dissertation.

The voting to pass or fail the student at the preliminary examination, and to allow or deny a re-examination, will be by written ballot. Passing the preliminary examination requires at least four affirmative votes and not more than one negative vote. If the chair of the committee casts a negative vote, the student will not pass the examination. The Director of Graduate Studies is responsible for submitting the Preliminary Examination Form to the Graduate School, and for ensuring that all preliminary committees understand and follow the correct Graduate School procedures. Should the student fail, he or she may apply, with the consent of the examining committee and the Associate Dean, for the privilege of a second examination to be taken no sooner than three months after the date of the first. The original committee must conduct the second examination. For the student to pass this second examination, the committee's vote must be unanimous. A second failure will render the student ineligible to continue in the doctoral program.

THE DISSERTATION

The doctoral dissertation should normally be submitted and accepted within two calendar years after the preliminary examination is passed. Should the dissertation not be submitted and accepted within four years after the examination, the candidate may, with the approval of the committee chair and DGS, petition the dean of the Graduate School for an extension of up to one year. If this extension is granted and the dissertation is not submitted and accepted by the new deadline, the student may be dropped from candidacy. Students dropped from candidacy must then pass a second preliminary examination to be reinstated as a candidate for the degree. In such cases, the new time limit for submitting the dissertation will be determined by the dean of the Graduate School in consultation with the candidate's committee.

PhD and master’s students are required to complete the Apply to Graduate process in Duke Hub for the semester in which they plan to graduate. There is no penalty if you apply to graduate and do not graduate during that semester. However, the form data does not carry over from one semester to the next, so you will be required to re-apply for the next graduation.
Graduation Deadlines

***Please Note these Deadlines for May Graduation:

- January 25, 2017—Deadline to Apply to graduate
- March 17, 2017 ----Deadline for initial submission of a student’s electronic doctoral dissertation
- April 3, 2017-----Final Deadline to defend your dissertation
- April 17, 2017----Deadline for Final Submission of electronic dissertation thesis

Check here: All Graduation-Related Deadlines for other graduation deadlines.

Approval from Adviser

PhD candidates and master's candidates writing a thesis: Before the Graduate School can release your examination certificate, we must receive an adviser letter and a defense announcement via e-mail (gradacademics@duke.edu). The adviser letter must be sent by your adviser and needs to state that he or she has read your dissertation or thesis and that it is complete and ready for defense. The defense announcement must be sent by your program’s director of graduate studies assistant.

Non-thesis master's candidates: An adviser letter must be submitted to The Graduate School via e-mail (gradacademics@duke.edu) no later than the deadline for submission of the Apply to Graduate procedure in Duke Hub. The letter must be sent by your adviser and needs to state that you are ready to graduate.

The basic requirements for preparing the dissertation and submitting it electronically are prescribed on the Graduate School Website: https://gradschool.duke.edu/academics/theses-and-dissertations
For more specific aspects of form and style, the student is advised to use A Manual for Writers of Term Papers, Theses, and Dissertations by Kate L. Turabian, or other approved manuals of style.

Doctoral students frequently co-author research articles with their advisors or other faculty. The standard expectation in the public policy program is that no more than one chapter of a student’s dissertation may reflect such co-authored work. This presumes that a dissertation consists of a minimum of three chapters. This restriction does not apply to work co-authored with fellow students, however it is expected that joint work between two or more students will be submitted as part of only one dissertation. Any deviation from this norm must be approved in advance by the Director of Graduate Studies.

Dissertation Defense

The Director of Graduate Studies sends a notice of the time, place, date, student's name, title of dissertation, and names of the committee members to the Graduate School at least two weeks before the scheduled examination. An initial version of the dissertation manuscript must be submitted to the graduate school by this deadline as well. The Final Examination Certificate will not be released by the Graduate School until this notification is received from the Director of Graduate Studies and the student has brought the dissertation to the Graduate School for a format check. Members of the doctoral committee should have at least two weeks prior to the defense to read the dissertation.
The final examination is administered by the student's supervising committee. Successful completion of the final examination requires at least four affirmative votes and not more than one negative vote. If the committee conducting the examination includes more than four examiners, the candidate fails if two adverse votes are cast by members of the committee or if a single adverse vote is cast by the professor supervising the dissertation. A single adverse vote by a member of the committee other than the supervising professor does not prevent a candidate from passing, unless the person casting the negative vote records a protest in writing within three days with the Dean of the Graduate School for submission to the Executive Committee of the Graduate Faculty. After hearing the members of the committee state the reasons for and against passing the candidate, the Executive Committee shall decide the matter. In all cases, the certificate carries a complete record of the vote as cast and, if passed, the dissertation bears only the signatures of the committee members voting affirmatively.

Questions asked on the final examination should concern the candidate's dissertation and related matters. The examination is oral and normally continues at least two hours, but not more than three. The decision on whether the candidate has passed the examination should be by written ballot. If all members vote affirmatively, they sign their names on at least the acid-free and the first copy of the dissertation title page, on the acid-free and first copy of the abstract title page, and on the certificate of examination to the Dean (doctoral exam card). These signatures signify that the latter is an abstract of the dissertation suitable for publication in Dissertation Abstracts. The final examination certificate should be returned promptly to the Graduate School Office, either by the student or by the chairperson of the student's committee. A committee that finds the candidate has passed except for minor revisions should sign the dissertation examination certificate and abstract, with the understanding that the supervisor sees and approves the revisions before the dissertation is submitted to the library. The student has up to one month after the examination to make changes in the dissertation requested by the committee. If the student needs longer than one month for making these changes, you may request an extension of time, stating the reason for the delay and specifying the date the dissertation will be returned. The period of one month after the examination for returning the final copies of the dissertation and all required forms cannot apply if the examination occurs just prior to the end of the Summer Session, or the fall or spring semesters. At those times the corrected dissertation and required forms must be returned immediately to meet specified deadlines for the awarding of degrees. If, at the end of the semester or term, the student cannot meet these deadlines and takes longer than one month to return the dissertation, the student will be required to register for the ensuing term or semester in which the degree will be awarded.

Remote Participation for the Preliminary Exam and/or the Dissertation Defense:

All members of the approved committee must participate in the examination and are expected to be present. The candidate, the chair and the majority of the committee must be present in person. If there are four members, one member may participate remotely. In a five person committee, two members may participate remotely.

Permission for committee members to participate remotely will be requested by the Director of Graduate Studies. It must be approved by the Associate Dean of the Graduate School prior to the exam. The remote participate will follow the instructions for remote participation (usually a short letter on university of letterhead indicating the remote participants vote for the exam).

If a member fails to appear for a defense and previous agreement for his or her remote participation has not been secured, the exam must be rescheduled.
M.A. Degree Requirements

PhD Students in good standing become eligible to receive an M.A. degree upon successful completion of the comprehensive exam, typically administered at the beginning of a student’s third year in residence. Students who elect to exit the Ph.D. program, or who fail one or more qualifying requirements up to and including the comprehensive exam, may be eligible to earn an M.A. in Public Policy, under conditions described below.

I. Option 1: Non-thesis master’s degree

Description:

Students enrolled in the PhD Program in Public Policy who have met all coursework requirements and successfully passed the Comprehensive Exam may apply for an M.A. in Public Policy as they continue to work toward the PhD degree. Students interested in obtaining the MA must apply to receive it and bring the necessary forms to be signed by the Comprehensive Exam Committee. Receipt of the MA in Public Policy precludes students from obtaining Master’s degrees in any other area during the course of their doctoral studies.

A. Coursework

Students must pass at least 10 three-credit graduate courses. These courses must include the following:

- PubPol 901
- PubPol 902
- 2 courses in Research Methods
- 2 courses in a Disciplinary Subfield within Economics, Political Science or Sociology (See Course Planning Requirements)
- 2 Public Policy Electives in a specific Policy Area (500 level or above).

B. Completion Exercise: the Comprehensive Exam

The Comprehensive Exam is designed to assess a student’s mastery of existing scholarly work in an area delimited by traditional disciplinary subfield and policy area and is taken at the beginning of a student’s third year in the PhD program. The Comprehensive Exam will consist of three components: 1) a paper to be initially submitted in advance of the exam, with a revision due on the date of the written exam, 2) a written exam or literature review that will prove mastery of the reading materials 3) an oral follow-up with the three-member examination committee. The paper and written test/literature review collectively serve the role of a completion exercise, and the oral follow-up serves as the defense of this completion exercise. The standard for passing the comprehensive exam at the MA level is intended to be lower than the standard for passing at the Ph.D. level, thus a comprehensive exam committee may simultaneously deliberate (a) whether a student has met the standard to continue in the Ph.D. program in good standing and (b) conditional on failing to meet this threshold, whether the student has met the requirements to receive the MA degree. For more specific information regarding exam content, preparation and assessment see the Comprehensive Exam Requirements in the PhD Student Handbook. Students must register to graduate in ACES and their adviser must submit a letter to graduate school stating that they are ready to graduate. Please see the following link for more details: https://gradschool.duke.edu/academics/preparing-graduate
II. **Option 2: “accelerated” MA**

**Rationale:**

The proposed “accelerated” Master’s degree for PhD students in Public Policy draws heavily from similar degrees available to PhD students in the Political Science, Economics, and Sociology departments at Duke. The option is primarily intended for those students that have completed the majority of the coursework for the doctoral program but were unable to meet one or more specific qualifying requirements, or for those students who have elected to leave the program voluntarily.

Students interested in pursuing option 2 must obtain approval from the DGS of the Public Policy Ph.D. program prior to the oral defense of the M.A. project.

**A. Coursework**

The course requirements for option 2 are identical to those for option 1 above. Students must pass at least 10 three-credit graduate courses. These courses must include the following:

- PubPol 901
- PubPol 902
- 2 courses in Research Methods
- 2 courses in a Disciplinary Subfield within Economics, Political Science or Sociology (See Course Planning Requirements)
- 2 Public Policy Electives in a specific Policy Area (500 level or above).

**B. Completion exercise: the M.A. Project**

Students, who elect to leave the program before the administration of the comprehensive exam, or those who fail to complete an earlier qualifying requirement, complete an M.A. project in lieu of the comprehensive exam. The M.A. project should demonstrate the student’s ability to collect, interpret, and analyze pertinent material on a research problem. Ideally, the M.A. project will be a paper of approximately 20-30 pages double spaced. Students may choose to expand upon a term paper to fulfill this requirement. Student projects will be completed under the supervision of a faculty advisor. The project will be the principal topic of a final oral examination conducted by the advisor and two other Public Policy faculty members and scheduled to meet posted Graduate School deadlines for Master’s examinations.
**PREPARING TO GRADUATE**

PhD and master’s students are required to complete the Apply to Graduate process in Duke Hub for the semester in which they plan to graduate. There is no penalty if you apply to graduate and do not graduate during that semester. However, the form data does not carry over from one semester to the next, so you will be required to re-apply for the next graduation.

**Note:** If you require special characters in your name, contact Academic Affairs ([gradacademics@duke.edu](mailto:gradacademics@duke.edu)).

**Graduation Deadlines**

- September 2017 Graduation: Apply to graduate by June 15, 2017
- December 2017 Graduation: Apply to graduate by October 15, 2017
- May 2017 Graduation: Apply to graduate by January 25, 2017

See [all graduation-related deadlines](#).

**Approval from Adviser**

**PhD candidates and master’s candidates writing a thesis:** Before the Graduate School can release your examination certificate, we must receive an adviser letter and a defense announcement via e-mail ([gradacademics@duke.edu](mailto:gradacademics@duke.edu)). The adviser letter must be sent by your adviser and needs to state that he or she has read your dissertation or thesis and that it is complete and ready for defense. The defense announcement must be sent by your program’s director of graduate studies assistant.

**Non-thesis master’s candidates:** An adviser letter must be submitted to The Graduate School via e-mail ([gradacademics@duke.edu](mailto:gradacademics@duke.edu)) no later than the deadline for submission of the Apply to Graduate procedure in Duke Hub. The letter must be sent by your adviser and needs to state that you are ready to graduate.

Withdrawal, Leave of Absence and Reinstatement

Withdrawal - Voluntary
If a student wishes to withdraw from the Graduate School for any reason, he or she must send written notice to both the Director of Graduate Studies in his or her department and to the Associate Dean prior to the date of anticipated withdrawal. Students may request subsequent reinstatement to the Graduate School. If reinstated, the student must pay the continuation for all the terms not registered plus a $200 reinstatement fee. A student who has successfully completed a minimum of one semester of graduate study before the completion of a graduate program may, with the approval of the major department, be issued a Certificate of Graduate Study.

Withdrawal - Involuntary
A grade of "F" in a major course normally occasions withdrawal from a degree program. Students are also administratively withdrawn from the Graduate School for failure to pay their debts to the University. Such withdrawal normally occurs in the early part of a semester. The Director of Graduate Studies will be informed of students from the department who have not cleared their Bursar's account and be given a date by which they will be withdrawn if their bills remain uncleared. When a student is withdrawn from school for failure to pay his or her debts to the University, he or she will not be allowed to attend classes, to receive stipend payments, or to function as a student in any fashion. Any student so withdrawn may not be registered in the Graduate School again until (1) all debts to the University have been cleared, and (2) reinstatement has been requested by the department and approved by the Dean. A reinstatement fee will also be charged. Students may also be administratively withdrawn for failure to comply with the State of North Carolina immunization laws. Students may obtain immunization forms from the Student Health Clinic. Finally, all students who have placed into English language proficiency courses and who fail to make satisfactory progress in their English proficiency requirements during their initial year of residence may not be allowed to register for a second year. In that case, they may be administratively withdrawn no later than the first day of classes in what would be their third semester at Duke. (Normally, the end of August for students matriculating in the preceding fall semester.)

Leave of Absence
A leave of absence differs from voluntary withdrawal in that the student granted a leave is insured a place in the graduate program if he or she returns to Duke within the time limit specified. Leaves of absence may be granted because of:

a. medical necessity;
b. full-time employment at Duke University;
c. acceptance of an external award judged likely to benefit the student as an individual but not related to degree requirements;
d. other reasons approved by the Associate Dean.

Students who request a leave of absence must obtain the endorsement of the Director of Graduate Studies, as well as that of their major professor. All requests for a leave of absence must be submitted to the Associate Dean for consideration before the first day of classes in a semester. No fees are charged to students who are on a leave of absence, but time limitations on degree requirements and time schedules for the completion of incomplete coursework are not waived during a leave. Only students who have completed at least one semester at Duke are eligible to request leaves of absence.

A leave of absence may be granted for a period of time no longer than one calendar year. Before the end of the period of time granted for a leave of absence, the student must notify the Associate Dean and the Director of Graduate Studies of his or her intention to resume graduate study.

To Note:
Non-US citizens with a student visa normally cannot take a leave of absence, since doing so jeopardizes their student visa status. Although the International Office cannot advise students about the academic validity of a leave request, non-US students with student visas would be well-advised to check with a representative of the International Office before submitting a leave of absence request to the Graduate School.

**Tuition and Fees**

After withdrawal from the Graduate School, refunds are made according to the schedule printed in the Bulletin. Tuition or other charges paid from grants or loans will be restored to those funds, not refunded to the student or carried forward.

**Reinstatement**

Students who fail to register continuously in the Graduate School, who do not return to school after an approved leave of absence, who have been withdrawn for failure to pay tuition and fees, or who have been withdrawn for failure to comply with the State of North Carolina immunization law or the Graduate School English proficiency requirement, must seek reinstatement before they can be enrolled again. To be reinstated the student must send a letter to the Director of Graduate Studies for endorsement before it is forwarded to the Dean for approval. The student must, as a condition of readmission, pay a reinstatement fee as well as “continuation” fees for all semesters not covered by a leave of absence before any subsequent registration can be accepted.

**APPEALS AND GRIEVANCES**

Required Courses: A student may petition the Director of Graduate Studies for permission to substitute coursework taken elsewhere for courses required by the department.

The Preliminary Examination/Dissertation Proposal Defense: This examination is subject to Graduate School rules, specified in the Bulletin, regarding both the requirement that it be taken within three years of matriculation and the procedure for a petition for a second attempt in case of failure on the first. Students wishing to petition for an extension of the Graduate School-imposed deadline must submit a written statement to the Director of Graduate Studies, who will then decide whether to forward the petition to the Dean of the Graduate School for formal approval. This statement must explain the reason for the delay and propose a specific date for the examination, and provide space for the signature of the Director of Graduate Studies.

Appeals and grievances on other matters can be made by written appeal to the full faculty, either through the Director of Graduate Studies or the Steering Committee for the Public Policy Ph.D. program. For further grievance procedures, see the Bulletin of the Duke University Graduate School.
The Sanford School of Public Policy
Code of Professional Conduct

PhD students are members of the Graduate School of Duke University and are governed by the Standards of Conduct and Judicial Procedures of the Graduate School. [http://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct](http://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct)

Please see here for behaviors that are prohibited by the Graduate School and Duke University: [https://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct/prohibited-behaviors](https://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct/prohibited-behaviors)

And here for the Judicial Code and Procedures: [https://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct/judicial-code-and-procedures](https://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct/judicial-code-and-procedures)

And finally here for Student Grievance Procedures: [https://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct/student-grievance-procedures](https://gradschool.duke.edu/academics/academic-policies-and-forms/standards-conduct/student-grievance-procedures)

Below is the Sanford School of Public Policy Code of Professional Conduct for your reference only. Please refer to the above sites for rules for PhD students.

The Sanford School of Public Policy

*Code of Professional Conduct*

The Duke Community Standard

Duke University is a community dedicated to scholarship, leadership, and service and to the principles of honesty, fairness, respect, and accountability. Citizens of this community commit to reflect upon and uphold these principles in all academic and non-academic endeavors, and to protect and promote a culture of integrity.

To uphold the Duke Community Standard:
- I will not lie, cheat, or steal in my academic endeavors;
- I will conduct myself honorably in all my endeavors; and
- I will act if the Standard is compromised.

Objective and Applicability of the Code of Professional Conduct at the Sanford School

*Objective.* The objective of the Sanford Code of Professional Conduct is to promote the Duke Community Standard. Since the entire Duke community benefits from the atmosphere of trust fostered by the Code, each of its members is responsible for upholding the spirit, as well as the letter, of the Code.

*Applicability.* The Sanford Code addresses standards expected of, and violations committed by, Master of Public Policy (MPP) or Master of International Development Policy (MIDP) students of the Sanford School of Public
Policy or other students taking courses for graduate credit at the Sanford School. MPP and MIDP students who violate the Honor Code within other schools or programs remain under the jurisdiction of the Sanford School of Public Policy and will have their cases reviewed and acted upon, as necessary, according to the Honor Code and procedures described in this document. For dual degree students simultaneously enrolled in the Sanford School and another school at Duke University, the Dean of the Sanford School and the Director of the MPP or MIDP program will discuss any Honor Code violations committed with administrators in the dual degree student’s sister program to determine the appropriate course of action. Disciplinary action, including revocation of a diploma, may be taken against someone who has graduated but later determined, in accordance with procedures established by the Dean, to have committed a Code violation while a student in the MPP or MIDP programs.

PhD students are members of the Graduate School of Duke University and are governed by the Standards of Conduct and Judicial Procedures of the Graduate School. Undergraduates are governed by the policies and procedures of the Duke University Division of Student Affairs – Office of Student Conduct. For all students, any conduct arising under Duke University’s pickets and protests regulations and cases involving students across communities (Sanford, Fuqua, Divinity, Undergraduate, etc.) also fall under the jurisdiction of the University Judicial Board.

Student Obligations, Professionalism, and Grievance Procedures

Student Obligations. Students will uphold the Sanford Code of Professional Conduct and the Duke Community Standard, including its obligation to take action if the Standard is compromised.

Student Professionalism. Integral to upholding the Duke Community Standard is the obligation to develop and maintain a professional atmosphere in every aspect of graduate student life. This includes complying with the Honor Code, as set out in further detail below, and according dignity and respect to other students, faculty, and staff, both on and off campus. This obligation extends to official and unofficial activities and events.

Student Grievance Procedures. It is the responsibility of the Director of the MPP or MIDP program to inform students of the appropriate channels for redressing complaints or grievances other than Honor Code violations. Normally students should bring their concerns to the attention of the person who is the subject of the complaint to see if they can resolve the matter. Although students may also discuss their complaints with any member of the faculty or staff in a position to advise or assist them, students should submit their complaints to the Director of the MPP or MIDP program for resolution. If the complaint cannot be resolved satisfactorily at this level, the student may appeal to the Dean of the Sanford School. An appeal must be filed in writing within two weeks from the date that the student receives notice of the decision by the program directors mentioned above.

The Sanford School of Public Policy Honor Code and Violations

Honor Code. An essential feature of Duke University is its commitment to integrity and ethical conduct. Duke’s honor system builds trust among students and faculty and maintains an academic community in which a code of values is shared. Instilling a sense of honor and of high principles that extend to all facets of life is an inherent aspect of a professional education. A student, by accepting admission to the Sanford School of Public Policy, thereby indicates willingness to subscribe to and be governed by the rules and regulations of the University as currently are in effect or, from time to time, are put into effect by the appropriate authorities of the University, and indicates willingness to accept disciplinary action, if behavior is adjudged to be in violation of those rules or in some way unacceptable or detrimental to the University. A student’s responsibility to the authorities and the regulations of the University in no way alters or modifies responsibilities in relation to civil authorities and laws.

Violations. Violations of the Sanford School of Public Policy Honor Code include the following:

- Unsanctioned collaboration on any examination or assignment. All academic work undertaken by a student must be completed independently unless the faculty member or other responsible authority expressly authorizes collaboration with another. Students may not discuss exams until all students have taken the exam.

- Plagiarism. “Plagiarism” occurs when a student presents any information, ideas or phrasing of another as if they were his or her own. Proper scholarly procedures require that all quoted material be
identified by quotation marks or indentation on the page, and associated with a particular source, be identified and attributed to that source. Instructors should make clear what their expectations are with respect to citing sources for each project. Students unsure about the University definition of plagiarism should consult the undergraduate bulletin, *The Duke Community Standard in Practice*, at: https://studentaffairs.duke.edu/conduct/about-us/duke-community-standard and this link on the Duke Student Affairs website: https://studentaffairs.duke.edu/conduct/z-policies/academic-dishonesty. The Duke Library website offers guidelines for citing sources and avoiding plagiarism at: https://library.duke.edu/research/plagiarism and http://library.duke.edu/research/citing/.

- **Harassment.** “Harassment” is any persistent, unsolicited behavior that threatens, intimidates, or torments another and is likely to interfere with an individual’s work or education, or to affect adversely an individual’s health, welfare, safety, or living conditions. Students unsure about the University definition of harassment should consult The Office of Student Conduct harassment policy statement at: https://studentaffairs.duke.edu/conduct/z-policies/harassment.

- **Cheating.** “Cheating” is the act of wrongfully the source of information and ideas, if closely using or attempting to use unauthorized materials, information, study aids, or the ideas or work of another in order to gain an unfair advantage. It includes, but is not limited to, the following: plagiarism; giving or receiving unauthorized aid on tests, quizzes, assignments, or examinations; consulting unauthorized materials or using unauthorized equipment or devices on tests, quizzes, assignments, and examinations; altering or falsifying information on tests, quizzes, assignments, and examinations; using without prior instructor permission any material portion of a paper or project to fulfill requirements of more than one course; submitting an altered examination or assignment to an instructor for re-grading; or working on any test, quiz, examination, or assignment outside of the time constraints imposed. See more at: https://studentaffairs.duke.edu/conduct/z-policies/academic-dishonesty.

- **Computer-Related Offenses.** It is expected that any student of the Duke community using its computer resources (all hardware, software, and network connections) will act in a legal and ethical manner. For more information, see https://web.duke.edu/policies/students/universitywide/computing.php.

- **Stealing.** “Stealing” is the theft, mutilation, or any other unlawful or improper appropriation or use of any property that does not belong to oneself. This includes funds or property found in student common areas, faculty and staff offices, classrooms, library and reserve materials; intellectual property of anyone other than oneself; and other funds or property, whether or not related to Duke University. Refer to: https://studentaffairs.duke.edu/conduct/z-policies/academic-dishonesty.

- **Lying.** “Lying” includes, but is not limited to, communicating a falsehood in order to gain unfair academic, professional, personal, or employment advantage that impacts the students, faculty, and administration of Duke University. Refer to: https://studentaffairs.duke.edu/conduct/z-policies/academic-dishonesty.

- **Any Other Misconduct**, whether committed on or off campus, which is adjudged detrimental to the University community.

A comprehensive list of violations included in the Sanford Honor Code appears in *The Duke University Community Standards in Practice*, found at https://registrar.duke.edu/university-bulletins/duke-community-standard-practice-guide-undergraduates, which defines authoritatively the violations described in the Sanford Honor Code, and is incorporated, along with its subsequent changes, herein by reference.

**Honor Code Procedures**

**Student Response to Suspected Violations.** A student’s signature on the Duke Community Standard obligates him or her to take constructive action if he or she witnesses, or knows about, behavior that he or she perceives to be inconsistent with the Standard. Although there are no disciplinary sanctions associated with failure to act, a student is, nonetheless, expected to take action as a responsibility of membership in the Duke community.

If any member of the Sanford community believes that an Honor Code violation has occurred, then he or she should, if practicable, approach the suspected violator to clarify the situation. If, after the approach, the person
making the allegation realizes no violation occurred, then the issue may be dropped. If, however, the person making the allegation still believes a violation may have occurred, he or she must promptly bring the matter to the attention of the faculty member concerned and Director of the MPP or MIDP program. For cases involving social behaviors of concern, a student should alert a faculty member, a senior staff member, or the Director of the MPP or MIDP program to address the matter through the appropriate informal or formal channels.

**Action by Directors of Graduate Programs.** The Director of the MPP or MIDP program will conduct a preliminary review of the information available about the allegations and provide the accused student an opportunity to respond. The Director and concerned faculty member will jointly determine whether to dispose of the allegations themselves through penalties or corrective measures, with the student’s concurrence, or through referral to the Sanford School Honor Board for formal review. The Director is responsible for assembling the relevant documents and records to provide to the Board.

The accused will be notified of the decision to refer the case to the Sanford School Honor Board, and may elect at any time to have the case reviewed directly by the Dean of the Sanford School in lieu of the Sanford School Honor Board.

**The Sanford School Honor Board.** The Board will be constituted to hear cases involving an accused MPP or MIDP student who has been referred by the Director of the MPP or MIDP program.

The Sanford School Honor Board shall sit with five members: a. One MPP student and one MIDP student, each elected by the student body of his or her respective program as an “Honor Board Representative.” b. Three members of the faculty appointed by the Dean of the Sanford School and serving staggered three-year terms that can be renewed by the Dean.

The senior faculty member of the Board (by length of service on the Board) shall serve as Chair. The Board shall be supported by a staff member to assemble, prepare, and maintain the record of proceedings, including the Board’s findings, in confidential files.

After the official request for a hearing has been received, the Chair must convene the Board within a reasonable period of time. During this time, it is the responsibility of the Chair fully to inform the Honor Board members concerning the case and to provide copies of the relevant documents and records to the Board and the accused.

The accused has the right to challenge any member of the Honor Board if he or she believes there is a significant conflict of interest with that panelist. If the Board decides by simple majority vote to excuse one or more of its members for reasons given by the accused, the Dean shall name a replacement for that case only. If any member of the Board believes he or she has a conflict of interest that might preclude a fair and impartial decision with respect to the accused, that Board member shall recuse himself or herself from the case, and the Dean shall appoint a replacement for that case only.

The accused has the right to be present at the hearing and to choose an advisor to assist him or her in the hearing process. The advisor must be a current Duke student, a Duke faculty member, or a Duke employee. The role of the advisor is to assist and support the student through the disciplinary process. The advisor may not address the hearing panel or any witness during the hearing.

The hearing shall be closed to the public. All proceedings shall be confidential. The hearing of any case shall begin with a reading of the allegations by the Chair in the presence of the accused. The Honor Board may call or question any witness with information relevant to the case. The accused shall have the right to offer written and oral information, question any witness, and call witnesses. The Honor Board shall consider only the documents and records provided by the Chair, documents submitted at the hearing, and any testimony of the accused and other witnesses at the hearing in reaching its decision(s).

After consideration of all the evidence, the accused will be excused, and the Honor Board will discuss the case and vote on whether the allegations are supported by clear and convincing information that the accused violated the Honor Code. A simple majority vote of the Honor Board will determine the finding to recommend to the
Director of the graduate program in which the accused is enrolled. If the allegation is substantiated, the Honor Board will then recommend a penalty, again determined by a simple majority vote.

The Honor Board shall have the power to impose the following penalties, or a combination thereof:
- **Expulsion**, dismissal from the University with recommendation never to readmit;
- **Suspension**, dismissal from the University and from participation in all University activities for a specified period of time, during which the substantiation of any other Honor Code violation may result in more serious disciplinary action;
- **Restitution**, payment for all or a portion of property damage caused during the commission of an offense. Restitution may be imposed alone or in addition to any other penalties.
- **Appropriate apology**, as determined by the Director or Dean.
- **Disciplinary probation** or other actions deemed appropriate.

The Honor Board Chair shall prepare a written statement of the findings for the Director of the graduate program concerned. The Director shall review and implement the Honor Board’s findings unless the student appeals.

Pending the final decision on the disposition, the student’s status shall not be changed, nor the right to be on campus or to attend classes suspended, except that the Dean may impose an interim suspension upon MPP or MIDP students who demonstrate by their conduct, that their presence on campus constitutes an immediate threat to the Duke community or its property.

**Appeals.** Only the accused student may appeal the decision of the Honor Board to the Dean of the Sanford School of Public Policy. Appeals shall be initiated in writing within two weeks from the date that a student receives notice of the decision by the Honor Board and shall be made directly to the Dean of the Sanford School of Public Policy. The Dean may conduct an independent review of the student’s case, or the Dean may choose to appoint an Appeals Committee as part of his or her review. The Appeals Committee will not include anyone who served on the Honor Board that considered the appellant’s case.

The Chair of the Honor Board shall supply the Dean and/or the Appeals Committee with the record of proceedings, documents, and records related to the case. The Dean may approve the Honor Board’s findings, or disapprove or modify them in whole or in part, but may not disadvantage the student. The Dean’s decision is final.

**Authority and Revision of Sanford Code of Professional Conduct**

The Dean and leadership community of the Sanford School of Public Policy approved this initial version of the Sanford Code of Professional Conduct, effective July 1, 2009. The Code may be amended at any time with due notice or publication by consent of the Executive Committee of the Sanford School, in consultation with student representatives. Questions and problems not answered or anticipated by the foregoing may be resolved by use of other existing institutions or by amendment. The Dean retains final authority for addressing all student misconduct, including conduct not covered in this Code and referral of matters for resolution in the civil or criminal justice systems.

Last Revision: August 14, 2017
AVOIDING PLAGIARISM

As students you will inevitably spend a lot of time writing. The Sanford Code of Professional Conduct states: “Plagiarism” occurs when a student presents any information, ideas or phrasing of another as if they were his or her own. Proper scholarly procedures require that all quoted material be identified by quotation marks or indentation on the page, and the source of information and ideas, if closely associated with a particular source, be identified and attributed to that source. Students unsure about the University definition of plagiarism should consult the undergraduate bulletin, the Duke Community Standard in Practice at: http://www.registrar.duke.edu/bulletins/communitystandard/

Information below is from the Duke Library Website: https://library.duke.edu/research/plagiarism

Remember, you can be charged with plagiarism if you:

- Copy, quote, paraphrase or summarize any source without adequate documentation.
- Purchase a paper by mail or email.
- Allow another person to write a paper for you.
- Submit another person's unpublished work in your name.

Information for Citing Sources
**FINANCIAL AID**

Duke University and the Sanford School of Public Policy are committed to supporting Public Policy PhD students for five years through a combination of scholarships, fellowships, research or teaching assistantships and stipends, provided that students maintain satisfactory progress in the program.

In addition to tuition, fees and health insurance students will receive a 9-month stipend in the amount determined annually by the Sanford School in consultation with the Duke Graduate School. Students may seek summer employment on or off campus to supplement this annual stipend. In order to receive this stipend, PhD Students in Public Policy will be required to work in a research, teaching or graduate assistantships according to their year of study:

- **Year 1:** Full fellowship, no work requirements
- **Year 2:** Part-time (10 hours/week) assistantship plus fellowship
- **Year 3:** Part-time (19.9 hours/week) assistantship plus fellowship
- **Year 4:** Dissertation Fellowships or full-time (19.9 hrs/week) assistantship
- **Year 5:** Dissertation Fellowships or full-time (19.9 hrs/week) assistantship

Students may petition the Director of Graduate Studies to postpone their fellowship support. For example, a student may petition to accept a 10 hour per week work commitment in the first year in exchange for half-fellowship support in the 4th year, which would reduce the expected work obligation from 19.9 to 10 hours per week. Petitions will be considered on a case-by-case basis.

Starting in Year 3, students are expected to apply for all applicable sources of external funding to support their dissertation research. However, we strongly encourage all students to seek fellowships from external sources, which can offer generous multiyear support packages. Of special interest to applicants who are U.S. citizens or permanent residents are the National Science Foundation Graduate Research Fellowships and the Jacob Javits Graduate Fellowship. U.S. minority applicants may also want to investigate the Ford Foundation Predoctoral Fellowships for Minorities, the American Political Science Association Minority Fellowships, the American Sociological Association Minority Fellowships Program, the Ronald E. McNair Post-baccalaureate Achievement Program, and the Alfred P. Sloan Foundation Graduate Scholarship Program.

For more information about financial support for PhD students at Duke, please visit: [https://gradschool.duke.edu/financial-support](https://gradschool.duke.edu/financial-support)

For more information about Duke University Graduate School Fellowships, please visit: [https://gradschool.duke.edu/financial-support/find-funding](https://gradschool.duke.edu/financial-support/find-funding)

In addition to those awards available through the university, applicants are urged to compete for national and foundation awards available for graduate study. A website maintained by Duke's Office of Research Support lists awards available from a variety of federal and private sources, as well as awards funded by the university. External awards, which are prestigious and a valuable acknowledgement of a student's intellectual project and promise typically replace departmental or Graduate School awards. Please visit the Office of Research Support website for detailed information about external financial awards: [http://www.ors.duke.edu/orsmanual/graduate-and-professional-student-funding](http://www.ors.duke.edu/orsmanual/graduate-and-professional-student-funding)
Supplemental Employment During the Academic Year

Duke Graduate School regulations govern student compensation for any academic year employment obtained outside the standard graduate awards budget system. For example, if you are on an external fellowship and wish to supplement that income with TA or RA work, that is permissible in some cases. In every case, the DGS must approve the arrangement. The DGS possesses the sole authority to determine whether earnings from such work will be offset by a reduction in the stipend amount.

Any student wishing to pursue this type of supplemental arrangements should take the following steps in exactly this order:

1) Fully read and comprehend the regulations governing supplemental employment: https://gradschool.duke.edu/sites/default/files/documents/policy_stipend_supplementation.pdf

2) Fully read and comprehend any regulations provided by the institute or agency providing external-to-the-Sanford School fellowship funds.

3) Obtain the written permission of any such institute or agency to seek supplemental employment, if any permission is required.

4) Approach the DGS to obtain written permission to seek such supplemental employment. The student will be expected to demonstrate their compliance with steps 1) - 3).

5) In the event said written permission is granted, seek such supplemental employment. Prospective employers should be made aware that they will be expected to cover the costs of compensation from resources at their disposal, not Ph.D. program funds.

6) Once a suitable employment arrangement has been identified, return to the DGS for final approval.

Students receiving unsolicited offers of employment in exchange for supplemental pay during an academic year should immediately inform the offering party of these regulations and proceed through these six steps exactly as outlined.

Requests to approve supplemental employment arrangements that do not conform to this protocol will be denied.

This protocol does not apply to students who do not receive funding through the standard graduate awards budget system.

Department Funding for Research-Related Expenses
The PhD Program has limited resources to support travel to conferences, attend supplemental training programs, and reimburse some start-up costs for research projects. The majority of these funds are allocated in an annual Small Grants competition. The call for proposals is typically issued in the fall with a deadline in mid-October. Applications will be accepted during other parts of the year only as funds are available.

Note the following rules from the Graduate School:

1) The maximum amount a student is allowed to receive for additional TA or RA assignments is $5,000 during the course of the calendar year. A student cannot be compensated an additional $3,000 for each section, if more than one section or assignment is added.

2) Students enrolled full-time in a degree program may not work more than 19.9 hours per week or their ‘student’ status may be jeopardized.
3) Students receiving external awards should request from the grantee the funds to be dispersed during the academic term for which they wish the funding to be counted. If they are dispersed in summer, they could affect any internal summer graduate school awards.

If you drove your personal car

**Mileage:**

**Address of arrival:**

Mileage will be reimbursed using maps.google.com from your departure address to the Sanford Campus address at the current IRS mileage rate.
How To Make the Most of Your Award and Get Reimbursed Faster:

1. Please include your receipts in chronological order from purchase (you can either hand physical receipts to me or send electronic copies of the receipts). If you send them electronically, please do hold onto the original receipts.

2. **Itemized receipts are required. Receipts must show what is purchased** and show the method of purchase with a charge (i.e. credit/cash).

3. **You can be reimbursed for the following:**
   - **Air/rail/bus:** Original ticket receipt, not email confirmation. Boarding passes are recommended to be submitted for proof of flight
   - **Rental car:** Original receipt/contract showing itemized charges
   - **Hotel/motel:** Original receipt showing itemized charges
   - **Registration fees:** Receipt, cancelled check or registration confirmation form indicating payment of registration fees
   - **Meals:** Original itemized receipts for all meals. Per Duke and Sanford Accounting, NO Alcohol is reimbursable. Please have alcoholic beverages put on a separate receipt and pay with personal funds.
   - **Taxi, shuttle, public transportation:** Original receipts

4. If you are splitting expenses, please write how much you paid on the receipt

5. You will be reimbursed for main meals (breakfasts, lunch, and dinner), lodging, mileage and transportation

6. You will not be reimbursed for snacks between meals

7. If you drive, you can be reimbursed for mileage from your Sanford office location to the destination and for the return trip. But not for travel during the conference. **Please include a Google printout showing your travel from your office location to the destination and the mileage.**

8. Receipts need to be turned in within 30 days of your conference

9. Purchases are for the individual student only

10. No alcohol charges

11. You will not be reimbursed if you go over the budget

12. Students are expected to find affordable options. Many students choose to share hotel rooms, travel by car and use other options that enable their money to go further.

13. Once you pass the preliminary exam, you are eligible and encouraged to apply for the Graduate School Conference Travel Award. You may only receive this award once during the fiscal year (July 1-June 30). The Sanford School will cover 30% **above** the allotted travel award of your reimbursements. If applying for Graduate School funding, make sure you follow their instructions for the application and for reimbursement which can be found on the application at [https://gradschool.duke.edu/financial-support/find-funding/conference-travel](https://gradschool.duke.edu/financial-support/find-funding/conference-travel).
Send Graduate School Conference Travel Award applications AND reimbursements to Lisa at least one week before the Graduate School deadline (30 days before AND after the conference).

Domestic Travel Award: The Graduate School awards you $525—Sanford will pay an additional $225 (30% on top of the $525 for a total of $750)

International Travel Award: The Graduate School awards you $700—Sanford will pay an additional $300 (30% on top of the $700 for a total of $1,000)

****Please include an estimate of how much the Sanford School would need to pay for a Graduate School Award into your small grant applications request.******

Duke International Travel Registry

During the course of study, PhD students may travel abroad for program-related or personal reasons. Conferences, workshops and jobs offer students extended opportunities for study, research, and professional development outside of the U.S.

The Duke University International Travel Policy requires that all Graduate/Professional students enter their travel plans in the Duke Travel Registry if a trip abroad will be funded by, sponsored by, or entails earning credit to be transferred to Duke or used to earn a Duke degree. This University-wide policy applies to Graduate/Professional students in all programs at any of Duke's schools, institutes, departments, programs, and labs and went into effect March 1, 2017.

In addition to registering, Graduate/Professional students planning to visit a destination on Duke's Restricted Region List must also sign and remit a High Risk Travel Waiver-Release form to the Travel Policy Administrator prior to departure. The Waiver-Release will be tailored for the individual, noting his/her travel dates and destination, and it will include the most up-to-date travel warning or alert. To begin the Waiver-Release process, use this link and go to the bottom right-hand corner of the page under “graduate and professional students” and select the button that best describes your travel (restricted or non-restricted destination): https://travel.duke.edu/index.cfm?FuseAction=Abroad.Home.

The Restricted Regions List (RRL) is a list of destinations deemed unsafe for travel by Duke University. Restriction decisions are made by the Provost based on recommendations from the Global Travel Advisory Committee (GTAC). GTAC assesses safety and security by reviewing U.S. State Department, International SOS, other government’s foreign affairs information, the World Health Organization and the Centers for Disease Control and Prevention. GTAC also consults with Duke Faculty and Staff who are identified as having research or travel experience in the destination being reviewed. The RRL is updated whenever specific conditions warrant and it is reviewed twice a year in its entirety. Further, any member of the Duke community can ask for a GTAC review of a destination or a review of a planned activity. Faculty and Staff can contact Christy Parrish Michels, Travel Policy Administrator, with questions or requests for a review or a GTAC opinion on a destination or planned activity. To sign up for RRL and Travel Policy related announcements, email your request to globaltravel@duke.edu. For a printer friendly copy of the list go to Restricted Regions List as of August 10 2017.pdf.

Registration information is considered confidential and will only be used in the event of an emergency.

Even if a student’s international travel destination is not on included in the RRL, it is strongly recommended that the student register his/her trip. In the case of an emergency, the information provided in the trip registration form can help Duke administrators locate you and coordinate support and evacuation services, if needed.
Our Public Policy PhD faculty members represent diverse disciplinary backgrounds and numerous research interests. The Public Policy PhD Program faculty consists of all members of the graduate faculty of Duke University with primary or secondary appointments in the Department of Public Policy as well as members of the graduate faculties in the Departments of Political Science, Economics, Sociology and other relevant departments, and of the faculties of the Nicholas School of the Environment and Earth Sciences, the Fuqua School of Business, the Law School, and other professional schools.

**Building Facilities Information**

**Building Maintenance, Housekeeping, and Parking Issues:** For building maintenance and housekeeping issues for both Rubenstein Hall and the Sanford Building, contact Khalil Nasir by completing a “Maintenance Request” form located on the Sanford School Intranet, accessed through the Sanford website: [https://duke.qualtrics.com/jfe/form/SV_0Nz6QJDkPXNzfQp](https://duke.qualtrics.com/jfe/form/SV_0Nz6QJDkPXNzfQp).

**Building Hours:** The Sanford School buildings are open to students 24 hours a day, with the exception of the first floor office corridors and the second floor of Rubenstein Hall. These areas are open during normal business hours. During the school year, the buildings are open to the public Monday through Friday from 7 AM to 7:30 PM. Use your Duke Card to access both buildings at all other times. From midnight to 6 AM, the air conditioning/heating may be reduced to conserve energy and cut costs. When maintenance that affects building utilities (water, air, electricity, etc.) is scheduled to be done, email notification will be sent out to all faculty, staff, and students.

**Cubicles and Office Space:** You will be assigned a cubicle or office. Please note the cubicles do not contain phones or computers. A limited number of shared office spaces are available to Ph.D. students; priority for these spaces is reserved for students with Sanford teaching obligations and dissertation writers.

**Computer Labs:** The computer lab in the Sanford Building is located in Room 09 on the ground floor of the building. In Rubenstein Hall, the computer lab is located in room 162 on the first floor. The Sanford Building lab is always open (except when classes are being conducted) and is accessible to those students who have accounts on the Public Policy local area network (LAN). If one lab is being used for a class, the other lab is open for students. Class schedules will be posted on the doors of the labs each semester. The Rubenstein Hall lab is accessible by swiping your Duke ID Card. For assistance with your personal computer, contact the OIT helpdesk, 919-684-2200. For computer, network, or email assistance, contact the PPS Helpdesk at 919-613-7400 or ppshelp@duke.edu.

**Student Parking:** Students who park motor vehicles on campus Monday through Friday (generally 8 AM to 5PM), must purchase a parking permit from Duke Transportation Services; exceptions are restricted, handicapped, service vehicle only or specially designated areas where you cannot park at any time. Parking in the three visitor spaces adjacent to the Sanford traffic circle during the business day is prohibited and subject to a $100 fine. Parking in the traffic circle, in the loading dock of either building, or in one of the two handicap spaces at the traffic circle is prohibited and subject to up to a $250 fine. If, during the course of your time at Duke, you become temporarily disabled due to an accident or other illness, please visit the Duke Parking and Transportation Services website ([http://parking.duke.edu/policies/permits/handicapped.php](http://parking.duke.edu/policies/permits/handicapped.php)) for instructions.

When you purchase your parking permit, you should receive a campus map and guidelines for parking on the University campus. Please read this information. If you have questions regarding parking please contact Duke Parking and Transportation Services, 2010 Campus Drive; 919-684-7275; tranpark@duke.edu.

**Guest Parking:** A limited number of visitor parking spaces is available in the ungated portion of the Sanford lot, or (if those spaces are full) in the Card Lot on Towerview Road, for guest speakers, committee members, etc. All guests must receive and display an official parking permit to occupy these spaces in either lot. Vehicles without permits will be towed at the owner’s expense. To obtain a permit for a guest, please contact Heather Griswold.
(heather.griswold@duke.edu; 103 Sanford Building; 919-613-7338) at least 48 hours in advance of the guest’s arrival. Permits may be picked up in 103 Sanford between 8:15 AM and 4:45 PM on business days. Please contact Heather to discuss parking for disabled guests, who may require a special permit to park in the gated portion of the Sanford lot.

**Sanford Eatery:** Saladelia Café is located on the ground floor of the Sanford Building adjacent to the Fleishman Commons and operates Monday through Friday during the academic year. Flex account, credit card and cash payments are accepted.

**Mailroom:** Student mailboxes are located in Rubenstein Hall room 145. Your campus mail box number is 90315. USPS mail is picked up and delivered at this location Monday through Friday before 2 PM. All business-related student mail should be addressed to Box 90315, Durham, NC 27708.

**Students are strongly advised to have all personal mail and UPS/FedEx deliveries addressed to their local off-campus mailing address.** UPS and FedEx will not deliver packages to PO boxes. If you must ship a large USPS package that cannot be easily picked up from 08 Sanford, please bring it to the Duke Post Office, located in the Duke Technology Center on the ground floor of the Bryan Center building (http://www.postoffice.duke.edu/receiving_sending/index.html).

**Copy Machines:** Two student copy machines, one in 08 Sanford and another in the Rubenstein Hall Resource Room 147, are available for personal (non-Teaching or Research Assistantship) use and require Flex Account (Duke ID swipe) payment. If problems arise with the copiers in either building, contact Khalil Nasir by completing a maintenance request form located on the Sanford School website: https://duke.qualtrics.com/jfe/form/SV_0Nz6QJDkPXNzfQp.

**Room Reservations:** To reserve any rooms except the four student study rooms, students must complete an official reservation request through the 25-Live system available on the Sanford website through the website “About Us/Our Location” – Facility Rental” section. By requesting a room, you are agreeing to follow Sanford’s room use policies which are found on that webpage. 25-Live requires users to “sign in” with their net IDs and passwords before accepting room reservations, and every student who wishes to use the system must first sign up with the 25Live administration. To do this, please send an email to marialana.weitzel@duke.edu with the subject line: “25Live new student registration.” Be sure to include your full name and Net ID in the body of the email.

There are four types of space available for use in the Sanford Building and Rubenstein Hall: small meeting rooms, classrooms, technical rooms, and event rooms. Small meeting rooms (rooms 140, 142, 207 and 287 in Rubenstein Hall) are automatically assigned if they are available. You should “star” these and other preferred rooms in your 25Live profile which will make your request for meeting rooms more efficient. Classroom, technical, and event rooms will have to be approved by the Events and Resources Coordinator. Unless you have requested a small auto-assign meeting room, you should receive an email confirmation of your space assignment within 72 hours. Unauthorized use of rooms/facilities will result in your being asked to leave the room.

For questions and suggestions when planning special events (guest speakers, catered events), please contact Marialana Weitzel (marialana.weitzel@duke.edu) to discuss your event and how the Sanford School can help make it a success.

**Audio-Visual Equipment:** If you require audio-visual equipment, contact Emily Totherow, Video Services Specialist, Room 295 Rubenstein Hall, 919-613-9269, email: emily.totherow@duke.edu. Requests should be made with ample lead time, to ensure that equipment can be located, tested/installed, etc.
Resource Room: Room 147 in Rubenstein Hall is open to Public Policy graduate students only daily from 7 AM until 5 PM and is accessible after those hours by swiping your Duke ID Card. Individual study carrels are available in the room. *The Resource Room is a designated quiet work area.*

Telephones and Facsimile Machine: Landline phones are located in meeting rooms throughout both Sanford and Rubenstein buildings as well as in the student study rooms in Rubenstein hall (103 and 160). Long distance calls made by students in either building require the use of a calling card.
Sanford School IT Services
August 2017

The Sanford Network:

The Sanford School provides network storage for graduate students in both a private directory and, if needed, shared space for group projects. You can access this space from any windows or OS X computer. The network is backed up every night and backups are available for 3 months. More information about file storage is available on the Sanford Intranet, under the FAQs.

In addition, Duke offers storage space in the cloud via Box and OneDrive. There will be a training session to get you familiar with these alternatives.

Duke University has a robust, secure, wireless network available across campus named Dukeblue. You can connect to the Duke wireless network with your netid and password. A visitor wireless network (does not require authentication) is also available. Duke University is a member of the Eduroam campus wireless community.

For classroom training, presentation or Audio-Visual needs at Sanford (video conferencing, webex, skype, and use of classroom equipment) please contact the AV support specialist at 919.613.7400, option 2.

Hardware:

We provide computers in lab 09 in the Sanford Building, lab 162 Rubenstein Hall, and Resource Room 147 Rubenstein Hall. Each of these spaces is equipped with computers running Windows 10 and MS Office 2016. The computers in these labs print to a 50 page/minute laser printer that also provides duplex printing. When a lab is reserved for a class the schedule will be posted on the door. Both labs will not be scheduled simultaneously.

There are four “study/team rooms”. They are 203 and 254 in the Sanford Building, and 103 and 160 in Rubenstein Hall. Students can use these rooms for group projects. Each room has a computer and can accommodate two to six people. Students can reserve these rooms using the sign-up sheet posted on the door of the room. For security reasons the doors to these rooms must never be propped open. During orientation you will get a key for these rooms.

The Duke Technology Center offers some excellent laptop/computer pricing on its back to school page. For more information on the models offered please see these student configurations. Note that these laptops offer extended warranties, which not only covers parts and labor but also optional coverage for accidental breaks or spills. Sanford IT does not provide support for personal computers. If you have a problem with your personal laptop, contact Duke OIT at 919-684-2200, or bring it to The Link.

eMail:

Your Duke email address is netid@duke.edu Your E-mail address alias is: firstname.lastname@duke.edu.
You can access your email via http://mail.duke.edu.

Software:

Duke OIT offers a wealth of free and discounted software including virus and spam protection, Stata and other statistical software, research tools, Office suites, and operating systems.
Reporting IT Problems:

For problems related to email, call the Duke OIT Helpdesk at 919-684-2200 or email at help@oit.duke.edu. For computer/printer related problems, call the PPS Helpdesk at 919-613-7400 or email ppshelp@duke.edu to tell us the problem. When reporting a problem on a lab computer, please be specific, including any error messages and the computer number posted on the front of the computer. Answers to common Sanford IT questions can be found on our intranet page: https://inside.sanford.duke.edu/sspp-it/faqs

Printing:

Sanford Printing:
There is not a charge to print in the labs. HOWEVER, you are limited to 5,000 pages per academic year. So, if between August 2017 and May 2018 you print 4,200 pages, you will not be charged for printing, and your counter goes back down to 0 in August 2018. The status of your print queue always appears on your lab computer

Duke’s ePrint System:
You can also use ePrint, which is managed by Duke OIT. ePrint printers are located in the alcove off the Fleishman Commons in the Sanford Building and room 145 in Rubenstein Hall. See the ePrint website for information on other locations, quotas, and the required ePrint software download.

If you are working as a TA or RA and print something for the professor. you do not want those pages to count against your Sanford total. A TA print queue exists for printing done for TA related work.

Printer Paper and Toner:

Paper is in boxes near the printer in each lab. Paper and toner cartridges in the two computer labs will be restocked by employees. If any of these places are out of supplies please email ppshelp@duke.edu. Students are advised to check the condition of the toner cartridge (by printing a sample page and checking it for readability) prior to printing a large number of pages, to reduce waste of paper. This paper is for the labs and is not intended for personal use.

Security

To keep your information secure you are offered several services through Duke’s IT Security Office. We will talk about these at greater length during orientation:

- Multi-factor authentication to protect duke websites you log in to that have personal information https://oit.duke.edu/net-security/security/multi-factor-authentication.php
- LastPass Premium password manager
- Box, 50 GB of encrypted storage in the cloud https://box.duke.edu
- Phone and mobile device security: http://security.duke.edu/secure-your-devices/mobile-devices

Sanford School Computing Staff:

Ed Ocampo            Computer Technician    edwin.ocampo@duke.edu    Room 295,
Rubenstein
Astrid Gatling      Computer Technician    astrid.gatling@duke.edu    Room 019,
Sanford
Emily Totherow      Video Services Specialist emily.totherow@duke.edu    Room 295,
Rubenstein
Research Management Tools at Duke University

Looking for ways to manage your research notes and citations and to format in-text citations and bibliographies? Duke provides access to two tools that may just fit the bill:

EndNote is a powerful desktop reference management application designed to help researchers keep track of citations and prepare bibliographies. EndNote is compatible with Microsoft Word and other word-processing software, allowing users to import references into documents as they write and automatically format papers in thousands of bibliographic styles, including Turabian, MLA, APA, and Chicago 15th. Download EndNote to your computer by visiting

http://library.duke.edu/research/citing/endnote

For subject specific help, contact:
Ryan Denniston (Political Science, Public Policy) at ryan.denniston@duke.edu or 919-660-5876

Rather have a web-based application? Then RefWorks is the research management tool for you. RefWorks offers many of the same functions as EndNote but resides online rather than your personal computer. Register for a free account by visiting

http://library.duke.edu/research/citing/refworks

Want to look at other research tools look here:
http://library.duke.edu/research/citing/tools

and you can compare all the research tools here:
http://library.duke.edu/research/citing/tools-comparison

Consider beginning to use EndNote or RefWorks early in your program – you’ll thank yourself as you put the finishing touches on your papers.

Still have questions? Use the Research Support site by the library at:
http://library.duke.edu/research
Sanford School Emergency Plan

This emergency plan for Sanford School of Public Policy (SSPP) outlines actions the SSPP Emergency Management Team should take to respond to incidents including accidents, severe weather, fires, explosions, and floods, hazardous materials releases, extended power outages, mass casualty events, and potential or actual terrorism events. It also applies to emergencies in the larger Duke community that could affect SSPP staff, faculty, students, programs, and facilities.

This protocol is part of the larger http://emergency.duke.edu/management/ created to prevent and respond to emergencies, protect students, faculty, and staff, secure infrastructure, and guard physical and reputational integrity. The SSPP emergency management team should follow the lead established at the university level during emergency response.

Emergency Response Procedure

Step 1  Gain Situational Awareness

Gain situational awareness (hazards, safety and/or operational concerns) to determine the severity, scope and potential duration of the emergency.

Step 2  Alert First Responders

Alert First Responders in order to safeguard human life, safety and health, and the material assets of the university through the following:

- **Accident or Medical Emergency**: Call Duke Police immediately by dialing 911 from a campus telephone land line, 919-684-2444 from a cell phone, or using the LiveSafe app.
- **Crime/Violence**: Call Duke Police immediately by dialing 911 from a campus telephone land line, 919-684-2444 from a cell phone, or using the LiveSafe app.
- **Explosion, Fire, Flood**: Call Duke Police immediately by dialing 911 from a campus telephone land line, 919-684-2444 from a cell phone, or using the LiveSafe app; evacuate according to policy posted for individual locations.
- **Information Technology Breaches**: Report immediately to Neil Prentice (SSPP Director of Information Technology) at neil.prentice@duke.edu or 919-613-9355.
- **Power Outage or Severe Weather Impact**: Call Duke Police immediately by dialing 911 from a campus telephone land line, 919-684-2444 from a cell phone, or using the LiveSafe app; alert Khalil Nasir at 919-613-9200 or at khalil.nasir@duke.edu.
- **Mental Health Issues**: Contact DukeReach (https://studentaffairs.duke.edu/dukereach1) or using the LiveSafe app; at 919-681-2455 to assist students who need psychological counseling. For emergencies after business hours, call Duke Police (919-684-2444) or page the Dean On-Call (919-970-4169). Staff and faculty seeking psychological counseling will be referred to Personal Assistance Service (PAS) at 919-416-1727 and http://pas.duke.edu/.
Step 3  Notify SSPP Emergency Management

Primary SSPP Emergency Management members as follows:

Emergency Manager: David Arrington, Associate Dean for Finance & Administration

Backup Emergency Manager: Neil Prentice, Director of Information Technology
Office: 919-613-9355  Cell: 919-491-7785  Home: 919-405-3927

Karen Kemp, Assistant Dean for Communications & Marketing
Office: 919-613-9394  Cell: 919-475-2704  Home: 919-493-5727

Secondary SSPP Emergency Management members as follows:

Khalil Nasir, Building Manager
Office: 919-613-9200  Cell/Home: 919-698-0773

Emily Totherow, Video Services Specialist
Office: 919-613-9269  Cell/Home: 919-630-1060

Jonathan Abels, Executive Director, Duke Center for International Development

Kate Walker, Assistant to the Dean
Office: 919-613-7309  Cell/Home: 919-308-2294

Linda Lytvinenko, Assistant Dean for Academic Programs and Student Affairs
Office: 919-613-9250  Cell/Home: 919-409-5797

Linda Simpson, Staff Assistant
Office: 919-613-9363  Cell/Home: 919-624-6118

David Schanzer, Faculty Member
Office: 919-613-9279

Tom Taylor, Faculty Member
Office: 919-613-9252

Step 4  Emergency Management Team Manager Continue Notification

The SSPP Emergency Manager will continue to notify central Duke and Sanford School senior administration.

1. Notify Duke's Emergency Coordinator or designee.
2. Notify senior administration in Sanford School.

Step 5  Emergency Recovery Operations
The exact steps for returning to normal operations will depend on the emergency and will be dictated by the Office of the Dean in collaboration with the Duke Emergency Coordinator.

**Policy & Priorities**

In the event of an emergency situation, the Sanford School of Public Policy will:

- Place the highest priority and concern on human life, safety, and health.
- Be compassionate, caring and make every effort to address the needs of our faculty, staff, students and visitors.
- Be open, straightforward, and accessible.
- Consider all stakeholders in our actions, keeping them fully abreast of the situation through normal channels, to the best of our ability.
- Acknowledge appropriate responsibility immediately.
- Make emergency response and all associated elements the top priority during an emergency event.

Priorities that must always be addressed when managing any emergency event:

1. **First Priority**: Ensure the life/safety of all employees and visitors.
2. **Second Priority**: Stabilize the situation through reestablishment of essential organizational services.
3. **Third Priority**: Reduce confusion and misinformation by following a clearly defined chain of communication and response.

**Sanford School Emergency Management Plan & Team**

Sanford School of Public Policy will maintain an Emergency Management Plan and an Emergency Management Team (EMT).

**Emergency Management Team & Responsibilities**

The EMT consists of individuals covering key functional areas of the School, i.e., Faculty, Central Administration, Academic Administration, Facilities, Communications, Information Technology, Events Management and School Centers/Programs.

The EMT will be chaired by the Associate Dean for Finance & Administration and will be advised by the Duke University Emergency Coordinator, as required. During an emergency event, representation on the EMT may vary according to the crisis at hand. SSPP abides by Duke University's Emergency Management Plan.

The EMT will develop, exercise, and maintain the processes, procedures, and tools necessary to effectively and efficiently manage through any emergency situation that may arise. Team responsibilities include:

- Acting quickly
- Obtaining all relevant facts regarding the situation
- Considering impact to all key audiences (internal and external)
- Establishing goals to defuse/remedy the situation
- Engaging assistance, if necessary
- Communicating with key audiences as needed
Appropriate emergency reporting, tracking, documentation, and post-crisis review practices will be implemented and adhered to. The EMT will work closely with leadership at the emergency "site" during any emergency and ensure mutual coordination.

**Emergency Management Plan**

The EMT has developed and implemented local Emergency Response and Evacuation Plans for its two buildings.

All public spaces (classrooms, Rubenstein Hall Resource Room, most meeting rooms) and Rubenstein Hall first floor corridor doors are equipped with door locking mechanisms to prevent access when appropriate. Door locking mechanisms are either a thumb turn lock or a push button lock. Thumb turn locks are housed on the door itself, above the door handle, and are color-coded to indicate whether locked (red color) or unlocked (green color). Yellow 'LOCKDOWN' push button locks are located on a wall adjacent to the entry door and are activated by lifting the cover and pushing the red button; you will hear a clicking sound that denotes the door has been locked. To deactivate the push button lock, turn the red button slightly to the right and the red button will pop back out and you will hear another clicking sound that denotes the door has been unlocked. Keep in mind that you can always exit out of a room whether either door locking mechanism is engaged or not.

All public spaces have two types of posted signage inside each room as follows:

- **In Case of Emergency** signage that provides building information (location, room #, building #, room phone # if applicable), closest fire extinguisher and fire alarm pulls, and designated storm shelters for that building (which may include the room you are in).
- **Floor Plan** of the building and room you are in (red star with "You Are Here" reference that shows your specific location), where emergency exits are, where designated storm shelters are located, and specific location of fire extinguisher and fire alarm pulls.

The School maintains a team of fire safety monitors for each building and floor level, each of whom is assigned specific offices/public spaces/restrooms to cover. Their primary role is to
assist with building evacuation in the event of a fire/drill but may be called on in other ways as needed.

This Plan is an evolving operational document; departures from this plan in actual crisis/emergency/disaster are likely to be appropriate and will be reviewed and revised based upon lessons learned from new events and/or exercises and/or changes in standards or best practice.

**Objectives of the Plan**

The objectives of our plan include the following:

1. Identify and assess vulnerabilities and hazards which may have a direct or indirect impact on the organization;
2. Strategic planning for emergency response, business continuity, and disaster recovery;
3. Ensure the safety and security of faculty, staff, students and visitors;
4. Maintain the continuity of our research and teaching services, products, and operations;
5. Effectively manage disaster assets and resources;
6. Provide relevant training based upon staff knowledge and lessons learned; and

Emergency response will address four phases of emergency (crisis) management: mitigation, preparedness, response and recovery, which are defined below:

- **Mitigation** activities are taken to reduce the risk of and lessen the impact due to a crisis.
- **Preparedness** activities are taken to organize and mobilize essential resources to a crisis before one occurs (i.e. training, obtaining and storing emergency supplies).
- **Response** strategies and actions are activated to respond to the crisis when it occurs.
- **Recovery** strategies and actions are taken during and after the crisis to restore systems critical to resuming normal operations. Considerations of recovery should begin early in the response phase and can extend into a long-term period after a major event.

**Emergency Levels**

Duke University utilizes a tiered response structure that encourages local management of incidents and coordinated communication involving senior leadership. Information on the University Emergency Management decision-making process can be found on the emergency website: [http://emergency.duke.edu/management/](http://emergency.duke.edu/management/).

**Employee Responsibilities**

It is the expectation of the Sanford School of Public Policy for employees to report any potential or developing emergency up through line management so that an appropriate response can be made. Management should quickly analyze the situation, then alert the appropriate authorities. This response may also include the activation of the SSPP Emergency Management Plan & Team.

**What to do in an Emergency**
For specific steps on what to do in case of an emergency, employees are asked to review http://emergency.duke.edu/what-to-do/:

- Tornadoes
- Armed Intruder
- Winter Weather
- Hurricane
- Evacuation
- Extreme Heat
- Fire
- Hazmat

**How Campus Emergencies are Communicated**

To stay informed about emergencies and/or potential situations, review the webpage http://emergency.duke.edu/plan/, which outlines how information is distributed:

- Outdoor siren system
- Text messaging (opt in system)
- Email
- Duke Emergency Website & alert bar on Duke-hosted sites
- Phone (alert message posted on 919-684-INFO, Duke's emergency and severe weather information line)
- Direct contact
- LiveSafe App

**Personal Responsibilities**

We encourage you to be situationally aware:

Know where the building emergency exits.
Know where the designated storm shelters are in each building.
Know the location of fire extinguishers, fire alarm pulls and first aid kits.
When fire alarm activated, exit the building.

If you are interested in serving as a fire safety monitor, contact the Sanford School Building Manager.

**LiveSafe App**
You are also encouraged to download the LiveSafe app, which is free for Duke students, staff and faculty. LiveSafe allows community members to submit various real-time tips through the touch of a button – everything from assault/abuse to suspicious activity – to Duke Police, which monitors messages 24/7 in its dispatch center. With the “SafeWalk” feature, the app uses GPS technology that enables individuals to invite others to “virtually escort” and monitor their location on a real-time map.
Course Audit Form

Auditing a course gives a student the opportunity to explore an area related to his/her policy interests or review an area of personal expertise. No credits will be issued for an audited course; however, it will appear on the student’s transcript with the grade notation “AD” for an audit that has been completed successfully or “WA” for an audit from which a student has withdrawn. Once a class has been audited, a student may not enroll in it for credit in a future semester. A student may drop and audit without penalty until the end of the drop/add period. After that time, the student must officially withdraw from the audit if he/she can no longer participate in the course.

Complete this Course Audit Form and submit it directly to the Office of the University Registrar no later than noon on the final day of Drop/Add for a given semester. The form may be delivered in person to the Registrar’s Office, 1121 West Main Street, Suite 1200 – Bevan Building, faxed to 919-684-4500, or scanned and sent as an email attachment to registrar@duke.edu.
